About

Features

- ✓ Layout Options: Choose between Portrait or Landscape modes and select Full-Width or Split Screens.
- ✓ Multimedia Compatibility: Support images, videos, PDFs, HTML5, and YouTube links in Multimedia Looping Mode.
- ✓ Integration with Smart Apps Creator: Compatible with Smart Apps Creator for creating interactive displays.
- ✓ Customizable Timer: Customize settings for date, time, and playlists.
- ✓ Day-Specific Playlists: Set different playlists for each day, whether it's on a weekly or monthly basis.
- ✓ Built-in Weather Forecast: Access a built-in weather forecast feature.
- ✓ Customizable News Tickers: Personalize news tickers to display the content you prefer.
- ✓ Soundtrack Assignment: Assign soundtracks to specific content or schedule music playback for playlists.
- ✓ Export and Import Functionality: Easily export and import playlists and multimedia.
- ✓ Remote Management: Support remote control of target hosts, including options like restarting Smart Scheduler, monitoring status, and shutting down or putting them to sleep.
- ✓ File Sharing and Group Function: Support file sharing and group functions for enhanced distance management.

Operating System / Requirements

- OS: Windows 10 or above
- CPU: Intel 4-Core 1.44Hz or above
- Memory: 2GB and above
- Graphics Card: 1024x768 16-bit or above
- Internet: Required Internet connection on first launch of software and some other functions such as YouTube, Google Map
- Supported Formats: Supported image types are JPG, PNG, GIF, and PDF, video is MP4 and URL.

Homepage

Homepage

The screenshot displays the homepage of SmartScheduler 3 PLUS. At the top left is the logo "SmartScheduler 3 PLUS" with a calendar icon. At the top right is a language dropdown menu set to "International". Below the logo is a navigation bar with four tabs: "Home", "Quick Start Settings", "Multimedia Playlist" (which is highlighted with a purple callout), and "About".

Under the navigation bar, there is a section titled "Choose a Mode" with two options:

- Quick Start Mode**: A teal button with a play button icon.
- Multimedia Looping**: An orange button with a film strip icon.

Below this is a section titled "Selected Play Mode" which shows "Multimedia Looping [Landscape]" in a light purple box.

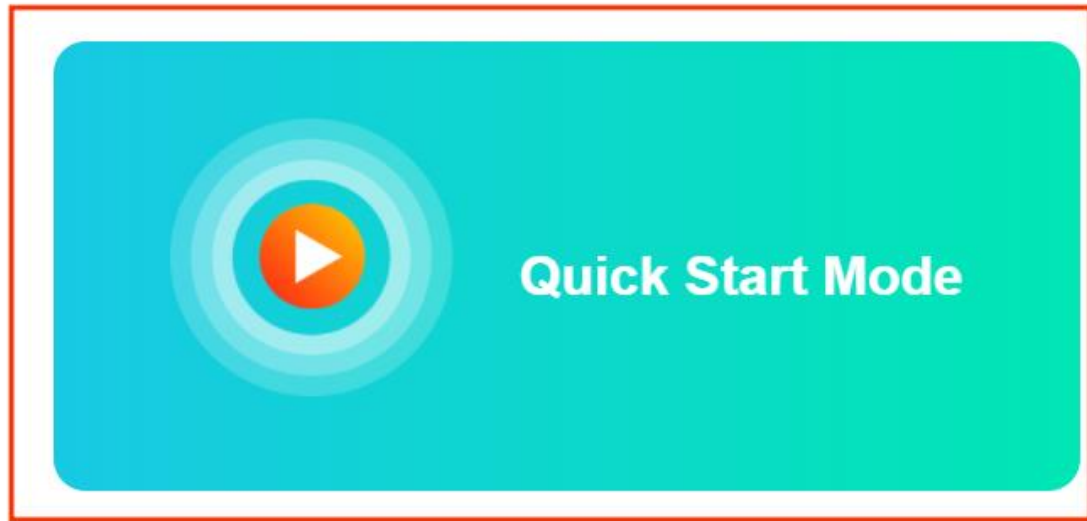

At the bottom, there are three controls: an "AutoPlay" toggle switch (currently turned ON), a "Play Now" button, and a "Save & Exit" button.

Quick Start Mode

Quick Start Mode

This mode is designed for users with basic advertising needs or those who have only a single signage display. It is like USB media playback but offers additional details and functions.

Choose a Mode

Quick Start Mode | Weather Forecast

*Choose whether you want to display the Weather Forecast;
if yes select the “ON” and enter your preferred city, e.g.: Bangkok*

Add background music or mp3, you can listen and adjust the volume down below

Add Background Music  

Quick Start Mode | Apply to all

You can adjust all the media playback duration at one time, after done editing, select “Play Now” to start

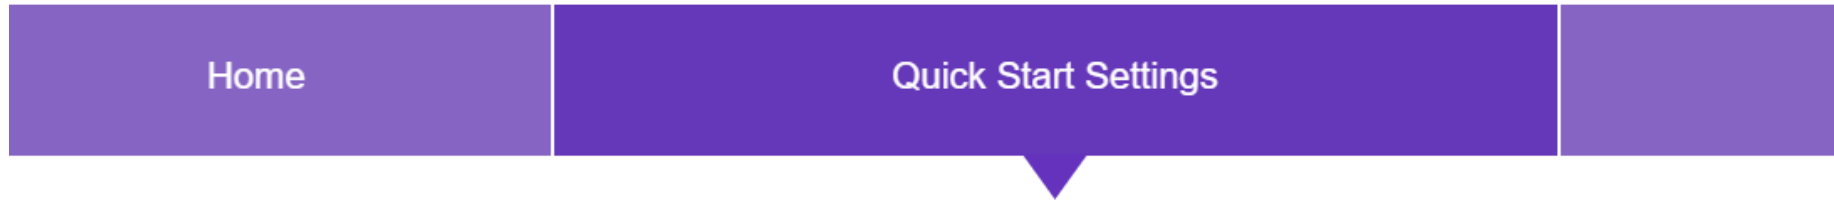

The screenshot shows a media management interface with a list of four items. At the top, there is a control bar with a 'Duration' label, two input fields for 'Min' and 'Sec', and an 'Apply to all.' button. A red box highlights this control bar, with a red circle containing the number '1' next to it. Below the control bar is a list of four items, each with a thumbnail, a number (1-4), and a duration control. A red box highlights the duration controls for all four items, with a red circle containing the number '2' above it. Each duration control consists of an input field with the value '0', the label 'Min', another input field with the value '5', and the label 'Sec'. To the right of each duration control is a trash icon.

Choose a Mode

Choose Layout

*Choose Portrait, Landscape or both videos in Layout
Then choose the News Ticker mode*

The screenshot displays the SmartScheduler 3 PLUS web interface. At the top left is the logo "SmartScheduler 3 PLUS" and a language dropdown menu set to "International". A purple navigation bar contains four items: "Home", "Quick Start Settings", "Multimedia Playlist" (which is highlighted with a white speech bubble), and "About".

The main content area features two sections highlighted with red boxes and numbered red circles:

- 1. Choose Your Layout:** This section contains two circular icons. The left icon shows a vertical smartphone with a person icon, representing portrait mode. The right icon shows a horizontal tablet with a person icon, representing landscape mode.
- 2. News Ticker:** This section contains two options for video placement:
 - Overlap the screen:** Represented by a video player icon that overlaps the top of the screen.
 - Display under the screen:** Represented by a video player icon that is positioned below the screen area.

Multimedia Looping's Settings

Edit the settings to your preferred settings, SmartScheduler have total 31 looping playlists.

Add Creative Collage

You can edit a creative collage very fast and easy just like the Paint app on Windows.

Suitable to announce a news like e-Bulletin board.

You can also add pictures in this Creative Collage.

Media Duration | Apply to all

You may use “Apply to all” to set the duration of timer (minute & second) if you have multiple images/videos)

The screenshot displays a media management interface with the following elements:

- Duration Settings:** At the top, there are two input fields: "Min" with the value "1" and "Sec" with the value "3". These fields are enclosed in a red box labeled "1". To the right of these fields is a purple button labeled "Apply to all", which is enclosed in a red box labeled "2".
- Enable Paragraph News Ticker:** Below the duration settings is a toggle switch labeled "Enable Paragraph News Ticker?" with "ON" selected.
- Paragraph News Ticker:** A purple button labeled "Paragraph News Ticker" is located below the toggle.
- Media List:** A table with four rows of media items. The first row is labeled "1" and "Creative Collage". The other three rows are labeled "2", "3", and "4" and each has a small image thumbnail. A red box labeled "3" encompasses the duration settings (Min and Sec fields) for all four rows.
- Action Icons:** To the right of each media item row are four icons: a pencil (edit), a document with a plus sign (add), a musical note (audio), and a trash can (delete).

Timer | Individual Settings

You may set the timer individually too

Min

The image shows a screenshot of a timer application interface. It features a list of items, each with a number, a small image, and a timer control. The timer control consists of a 'Min' (minutes) and 'Sec' (seconds) section. A red box highlights the 'Min' settings, showing a grid of numbers from 0 to 59. Another red box highlights the 'Sec' settings, showing a grid of numbers from 0 to 59. The 'Min' settings are currently set to 2 minutes and 5 seconds. The 'Sec' settings are currently set to 5 seconds. The interface also includes icons for adding, deleting, and playing the timer.

News Ticker | Paragraph

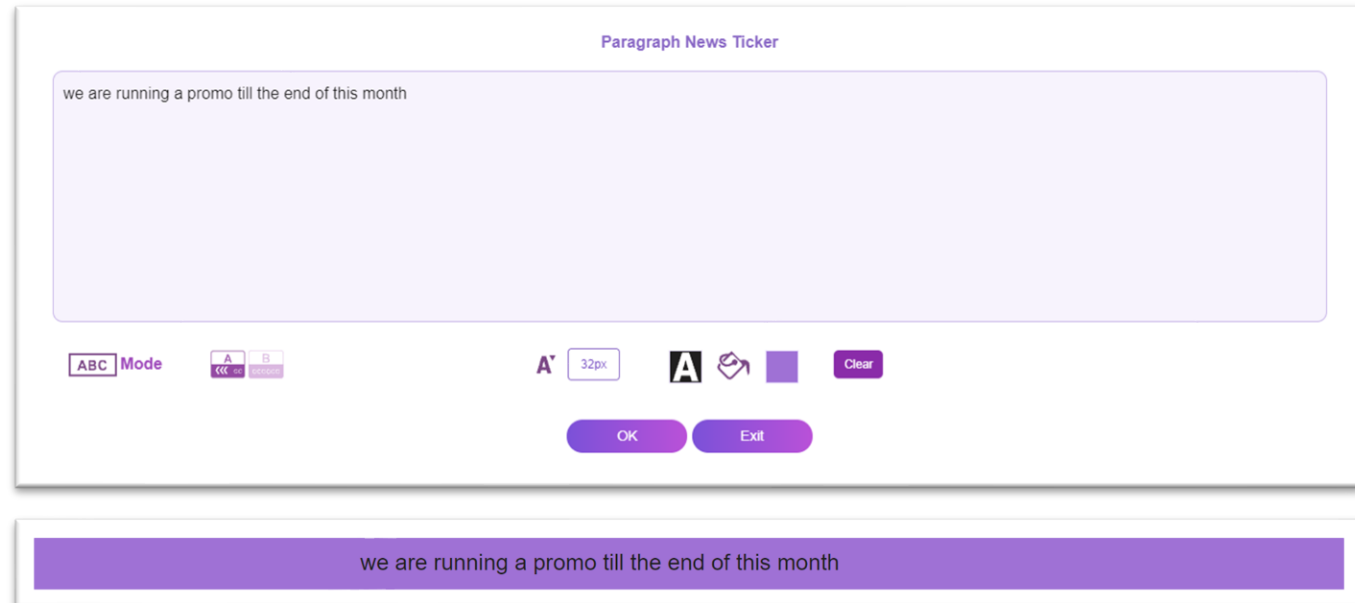

There are 2 types in News Ticker – Paragraph and Line

You may select [Paragraph News Ticker](#) to enter the **Paragraph** and edit the News Ticker to your preferred design.

Users may adjust the background color, text color, text size, and news ticker mode with a **real-time preview** in the below.

There are **2 Marquee Modes** in Smart Scheduler Mode A and Mode B.

Select “OK” to save the settings, and it will be **applied to all** the image(s)/video(s).

News Ticker | Line

You may set different news ticker for every docs (image/video/pdf/URL).

A stands for *ALL*.
Which means this doc has applied the **Paragraph News Ticker**.

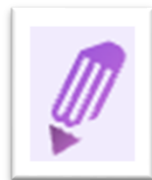

S stands for *Single*.
Which means this doc has applied the **Line News Ticker**.

Add music/MP3 for a certain doc.

Delete a certain doc.

Rename Page: You can rename the Creative Collage to identify it quick

1	C:\Program Files\SmartScheduler\import\cafe(no audio).mp4	2	Min	5	Sec

Nugens Digital Signage + Smart Scheduler Advertising Software Demo

Smart Scheduler

News Ticker | Save

Select Save to save the playlist and the page will jump to the Time Management section.

The screenshot displays the 'Smart Scheduler 3 PLUS' interface. At the top, there is a navigation bar with four tabs: 'Home', 'Quick Start Settings', 'Multimedia Playlist', and 'About'. The 'Multimedia Playlist' tab is currently active. Below the navigation bar, there is a list of six items, numbered 10 through 15. Each item has a thumbnail image on the left, a duration of '0 Min 10 Sec' in the middle, and three icons (a document with a pencil, a musical note, and a trash can) on the right. A red arrow points from the bottom of the list to a purple 'Save' button located at the bottom center of the screen. To the right of the 'Save' button is a 'Preview' button. In the top right corner, there is a language dropdown menu set to 'International'. In the bottom right corner, there is a 'Contents' icon.

Item Number	Thumbnail	Duration	Actions
10		0 Min 10 Sec	Edit, Play, Delete
11		0 Min 10 Sec	Edit, Play, Delete
12		0 Min 10 Sec	Edit, Play, Delete
13		0 Min 10 Sec	Edit, Play, Delete
14		0 Min 10 Sec	Edit, Play, Delete
15		0 Min 10 Sec	Edit, Play, Delete

[Save](#) [Preview](#)

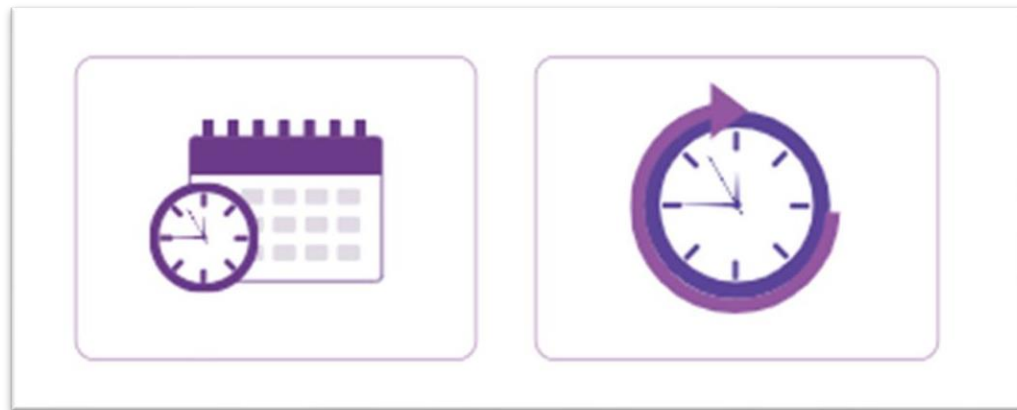

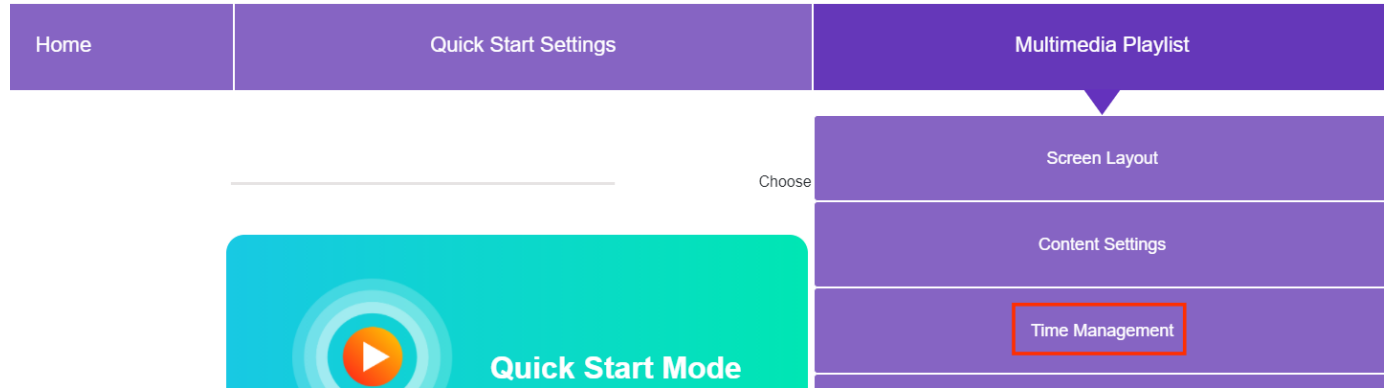

Clear Playlist

Select Clear Playlist to delete all the contents you made instead of deleting it one by one.

The screenshot shows the SmartScheduler 3 PLUS interface. At the top, there is a navigation bar with 'Home' and 'Quick Start Settings' buttons. Below this, the 'Looping Playlist' section is visible, containing a text input field with 'Coffee Shop' and a 'Clear Playlist' button highlighted with a red border. Below the playlist section is a 'Customize Title' section with another text input field containing 'Coffee Shop'. A dialog box titled 'SmartScheduler' is overlaid on the right side, with the text 'Delete all settings and media?' and 'OK' and 'Cancel' buttons.

Time Management

Time Management | Batch Settings

LAN File Sharing Management

LAN File Sharing Management

You can configure a shared folder to enable multiple digital signage to directly synchronize the scheduled content and settings from the shared folder.

Notes:

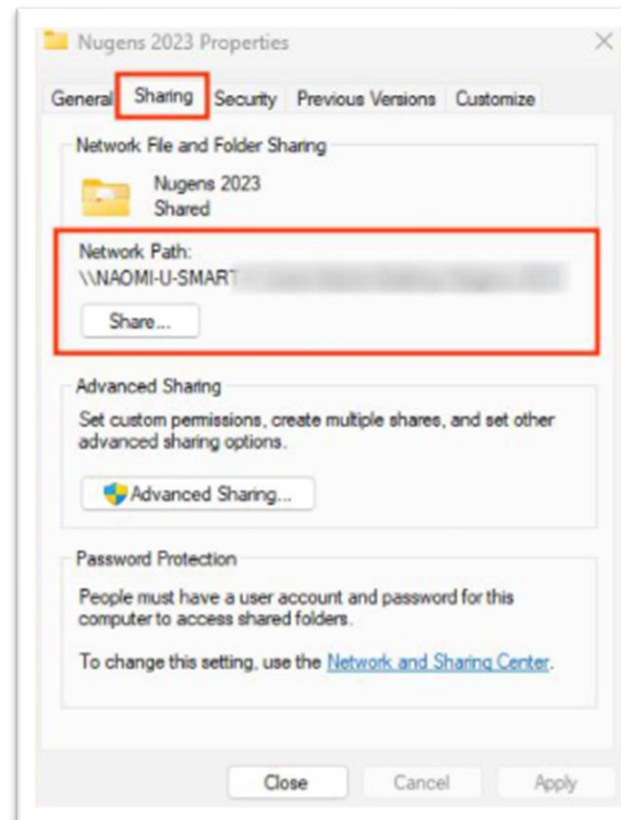

1. The remote digital signage(s) and the computer used for sharing playlist must be on the same network, meaning they are connected to the same network router or Wi-Fi access point.
2. The main computer's shared folder to be synchronized with the digital signage needs to be set as "Shared"
3. The Network Path must be directed to the folder of the main computer within the network neighborhood.
4. If there are firewall settings causing access issues, please contact your network administrator for assistance in resolving the problem.
5. Please confirm if AutoPlay is enabled.

LAN File Sharing Management

1. Select a folder to be used as the shared folder and set the "Network Path" to "Shared."

Note: The remote advertising machine for playback and the computer used for design layout must be on the same network segment, meaning they are connected to the same network router or Wi-Fi access point.

LAN File Sharing Management

2. Specify the shared folder path to the previously set shared folder. Other signages with SmartScheduler installed must also set the same folder path.

LAN File Sharing Management

You can configure a shared folder to enable multiple digital signage to directly synchronize the scheduled content and set

Notes:

1. The remote digital signage(s) and the computer used for sharing playlist must be on the same network, meaning they are connected to the same network router or Wi-Fi access point.
2. The main computer's shared folder to be synchronized with the digital signage needs to be set as "Shared"
3. The Network Path must be directed to the folder of the main computer within the network neighborhood.
4. If there are firewall settings causing access issues, please contact your network administrator for assistance in resolving the problem.
5. Please confirm if AutoPlay is enabled.

LAN File Sharing Management

3. After completing the path setup, please click on the "Output" button on the right. The system will start exporting all schedule configuration files and related materials to the specified shared folder.

LAN File Sharing Management

You can configure a shared folder to enable multiple digital signage to directly synchronize the scheduled content and set

LAN File Sharing Management

5. In the Remote Management platform, select the signage for local network distribution and click the “LAN File Sharing” button. This will start sending the files to the signage(s). Once the transmission is complete, playback will start automatically.

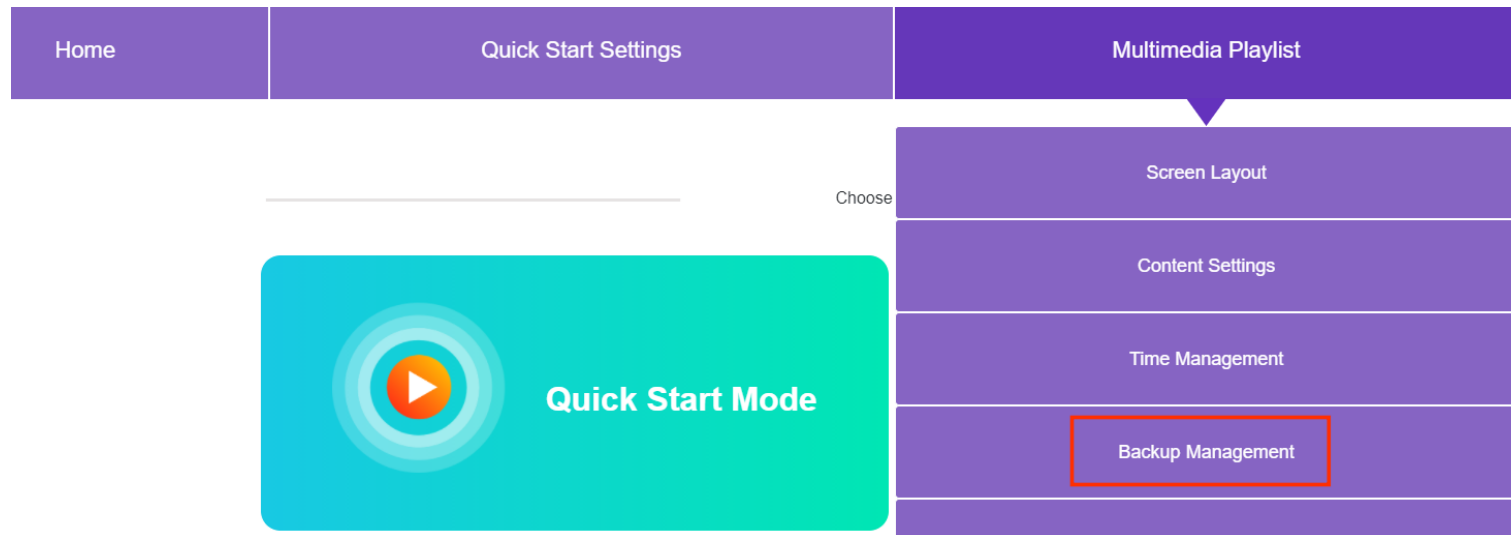

Backup Management

Backup Management

*We suggest the editor export local files as records when done editing because if you import another file (project made by others), the current file/project will be replaced, and **it cannot be undone.***

You can choose to export all or select a single playlist to export. It is important to note, especially during export, to ensure that the target signage is using either horizontal or vertical format; otherwise, it may not play correctly.

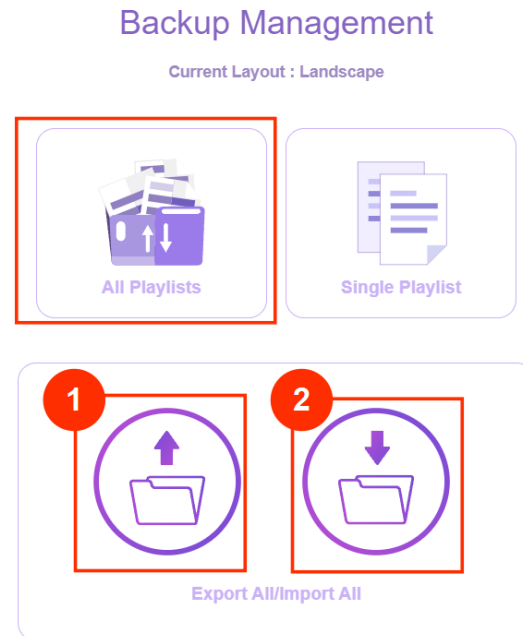

Backup Management

If selecting to export All Playlist, as shown in the image below:

1. Export: You can export weekly or daily playlists, schedule contents, and all multimedia files together. Choose the destination folder for the exported files; the default folder name is "export."

2. Import: You can import all data exported from SmartScheduler into the software. After selecting the source folder named "export," all settings and material files can be imported.

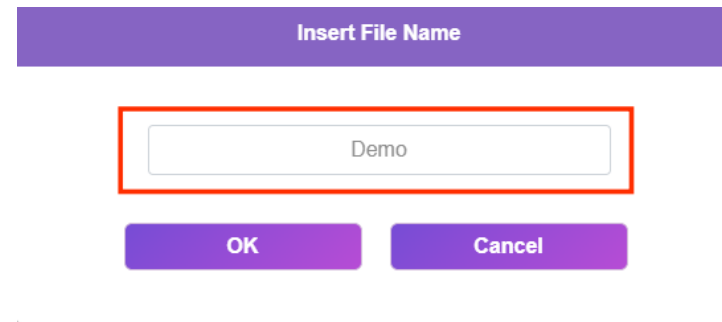

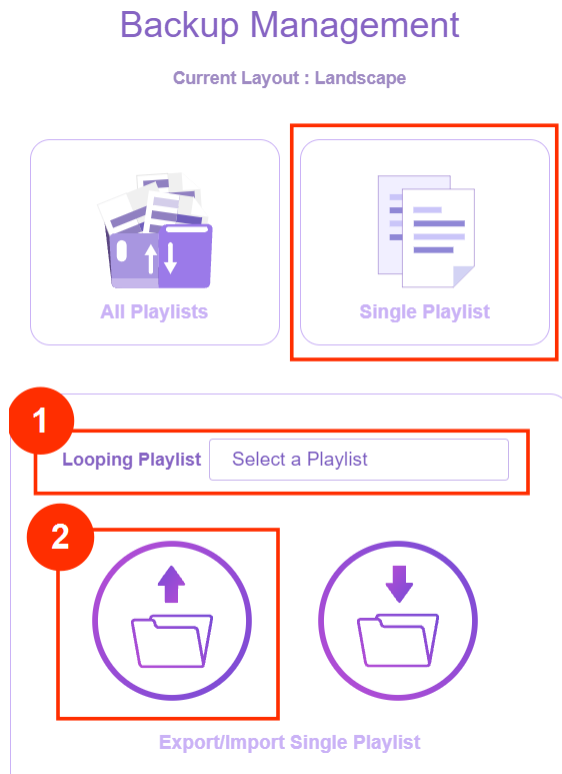

Backup Management

If selecting to export a Single Playlist, as shown in the image below:

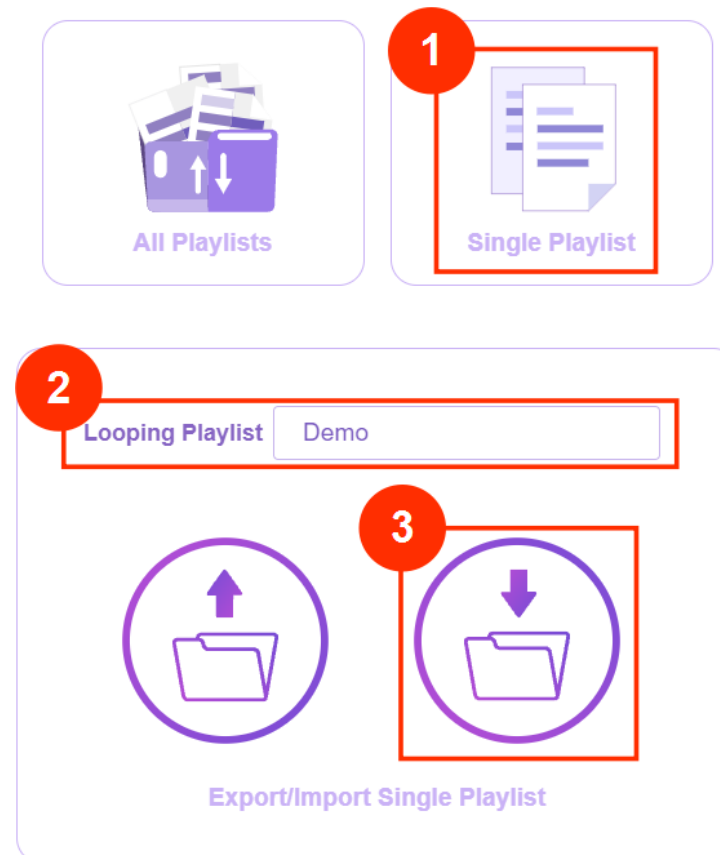

1. Looping Playlist: You can manually select the playlist to export.

2. Export: You can export the content of the playlist along with all multimedia files. Customize the exported file name, then choose the destination folder for the exported files. The exported file extension is .mlm.

Backup Management

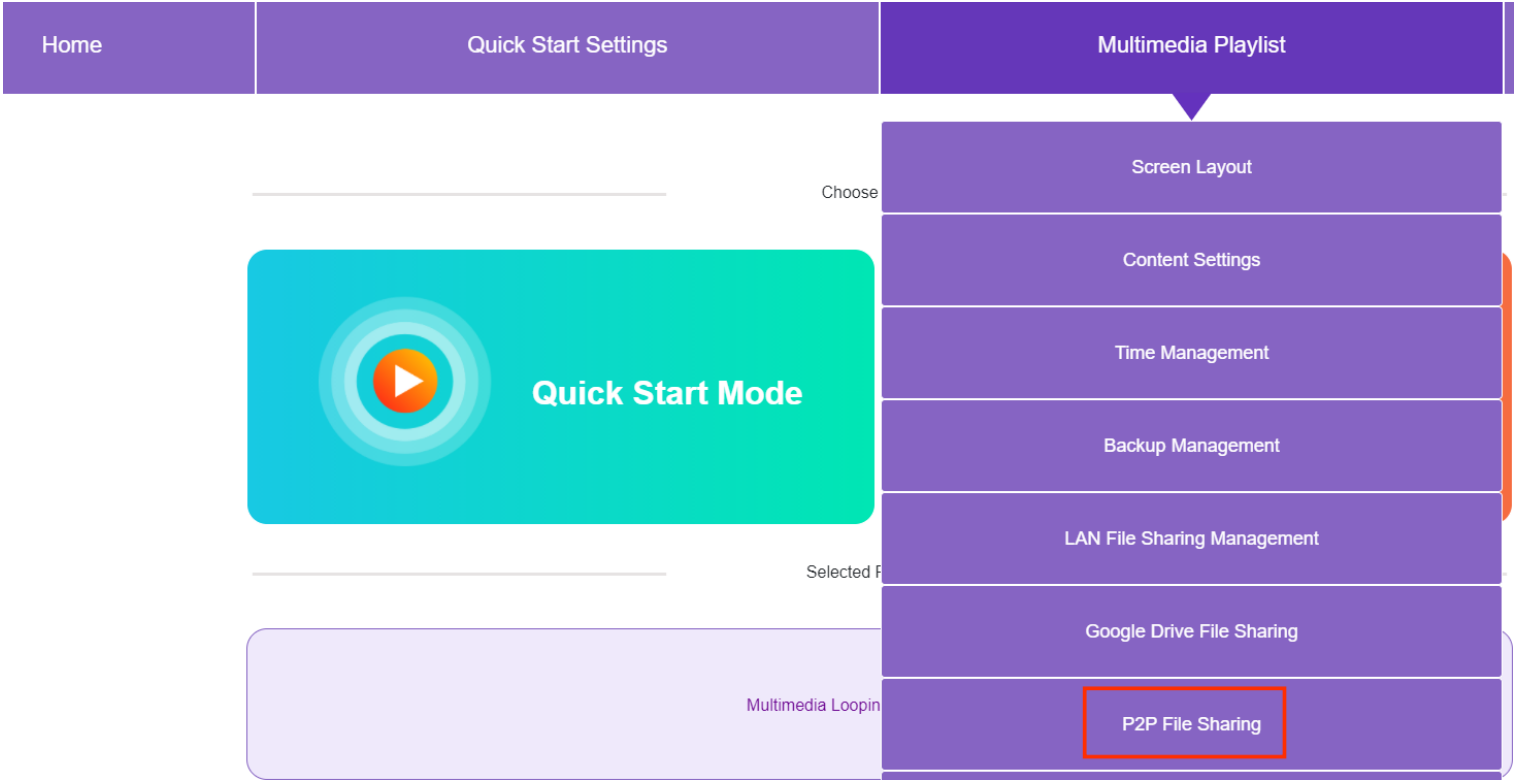

3. Import: You can import the playlist data into the software. First, select the playlist to overwrite, then choose the source file with the extension .mlm. This will import the playlist into the software.

P2P File Sharing Management

P2P File Sharing Management

This feature allows you to transmit pre-configured schedule data, including material and playback settings, to designated digital signage devices using P2P (Peer-to-Peer) communication.

P2P File Sharing Management

Password Protection: You can customize a password. When using the computer for P2P File Sharing, the password must be entered. This makes P2P File Sharing is secured by HQ or management team only.

Time

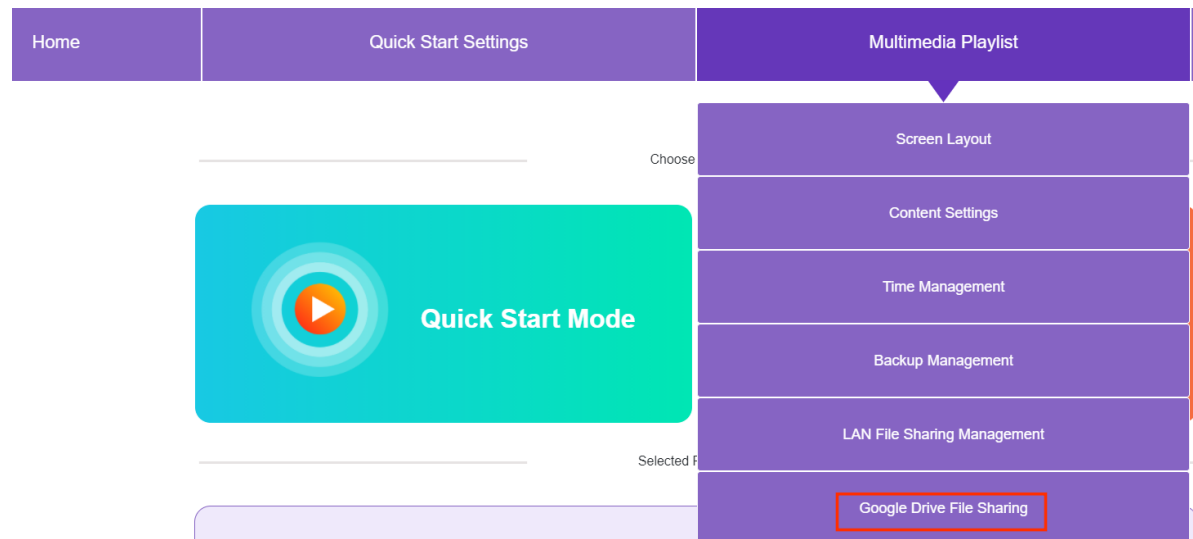

OK

Google Drive File Sharing

Google Drive File Sharing

This feature allows you to distribute pre-configured scheduling data, such as materials and advertising playback settings, to specified remote computers via URL download. If there are signages in different zones that need to play different content, you can set up materials and playback times separately and then distribute files to each zone's computer accordingly.

Before using, please ensure you have a Google Cloud account or any network hard drive that supports sharing downloads.

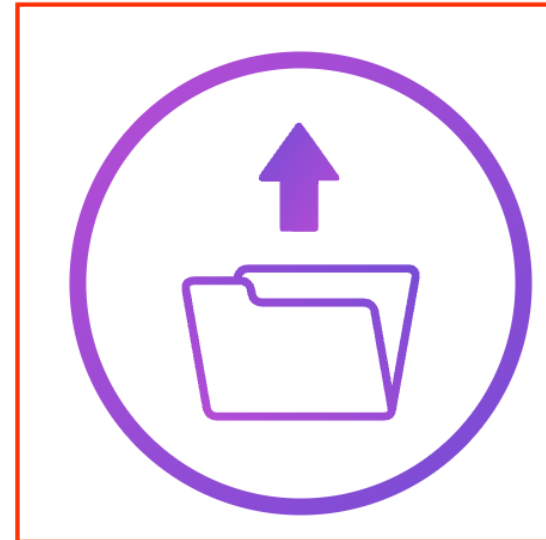

Google Drive File Sharing | Export

Select the “Export” icon to export the files.

Google Drive File Sharing

Steps of Operations:

1. Click [], enter the file name and select Next
2. Select a location to save the file, then it will saved a .tar file in the selected location
3. Please upload the .tar file to Google Drive.
4. In the "Share" settings, set "Anyone with the link" under "General access" to generate a downloadable URL.
5. Open **Remote Management**, select File Sharing
6. Fill in the following columns:
 - (1) Campaign Name
 - (2) Cloud URL
 - (3) Select computer to share
 - (4) Share Now or Schedule

Remote Management | Camera Snapshot

Select Camera Snapshot to view the live audience numbers so that you can pop-ups text or image correctly to influence customers and grow sales.

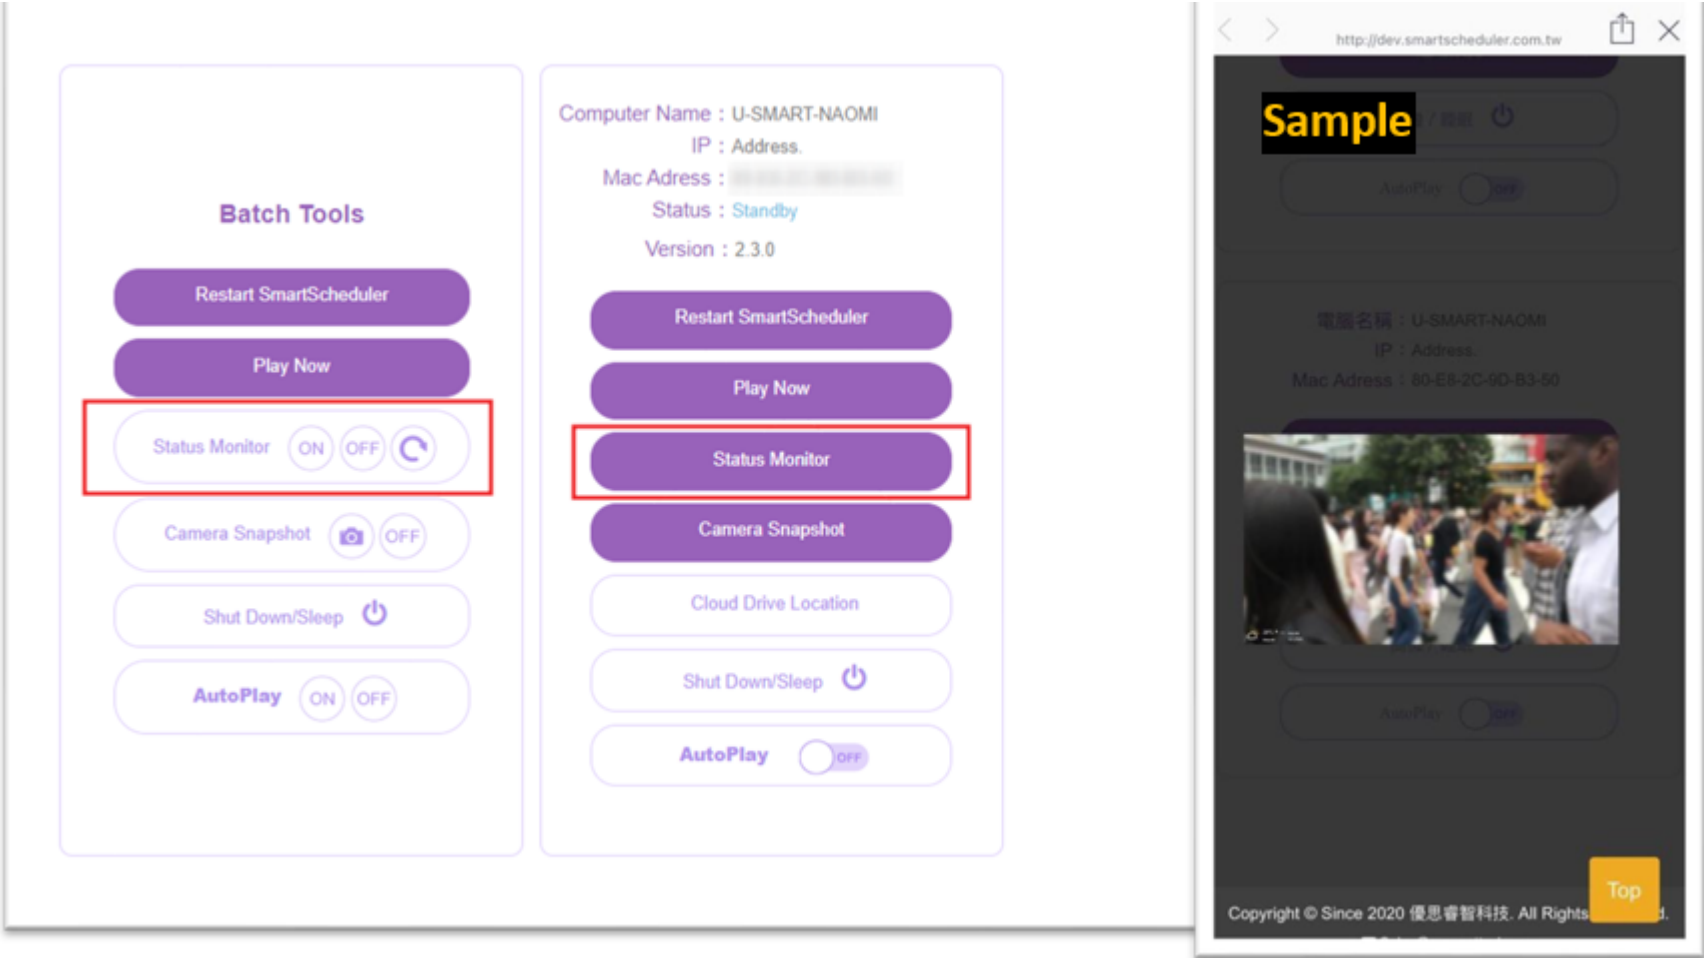

The screenshot displays a remote management interface with the following components:

- Batch Tools Panel (Left):** Contains several control buttons: "Restart SmartScheduler", "Play Now", "Status Monitor" (with On/Off toggle and refresh icon), "Camera Snapshot" (with camera icon and On/Off toggle), "Shut Down/Sleep" (with power icon), and "AutoPlay" (with On/Off toggle).
- Computer 1 (U-SMART-ACOM):** Shows system information (IP, Mac Address, Status: Standby, Version: 2.3.0) and a camera snapshot of a large crowd of people.
- Computer 2 (U-SMART_55):** Shows system information (IP, Mac Address, Status: Ongoing, Version: 2.3.0) and a camera snapshot of people at a counter.
- Control Panels (Bottom):** Each computer has a corresponding control panel with buttons for "Restart SmartScheduler", "Play Now", "Status Monitor", "Camera Snapshot", "Cloud Drive Location", "Shut Down/Sleep", and "AutoPlay".

A red rectangular box highlights the camera snapshots for both computers, indicating the selected feature.

Remote Management | Status Monitor

You may select Status Monitor to see whether the ads is being interrupted or running well.

Remote Management | Remotely Shut Down, Sleep or Wake PC

*SmartScheduler support Shut Down Timer, Sleep Timer and Wake Timer.
Set a timer to manage the ads.*

The image displays the SmartScheduler interface with three main components:

- Batch Tools Panel:** Contains buttons for "Restart SmartScheduler", "Play Now", "Status Monitor" (with ON/OFF toggle and refresh icon), "Camera Snapshot" (with camera icon and OFF toggle), "Shut Down/Sleep" (with power icon, highlighted with a red box), and "AutoPlay" (with ON/OFF toggle).
- Computer Information Panel:** Shows details for "U-SMART-NAOMI", including IP Address, Mac Address, Status (Standby), and Version (2.3.0). It features buttons for "Restart SmartScheduler", "Play Now", "Status Monitor", "Camera Snapshot", "Cloud Drive Location", "Shut Down/Sleep" (with power icon, highlighted with a red box), and "AutoPlay" (with OFF toggle).
- Shut down/Sleep Dialog:** A modal window with a close button (X) in the top right. It contains three sections:
 - Shut Down Timer:** Includes a checkbox, a dropdown menu set to "0", the unit "hr", another dropdown menu set to "0", the unit "min", and a "Repeat" checkbox.
 - Sleep Timer:** Includes a checkbox and two dropdown menus, both set to "0", with units "hr" and "min".
 - Wake Timer:** Includes a label "-- Wake Timer", a dropdown menu set to "0", the unit "hr", another dropdown menu set to "0", the unit "min", and a "Repeat" checkbox.At the bottom of the dialog are "OK" and "Cancel" buttons.

Remote Management | AutoPlay

Turn ON/OFF the AutoPlay function.

Must turn AutoPlay on if you have set the Sleep & Wake function, or else it wouldn't play the ads when the PC is "woke up".

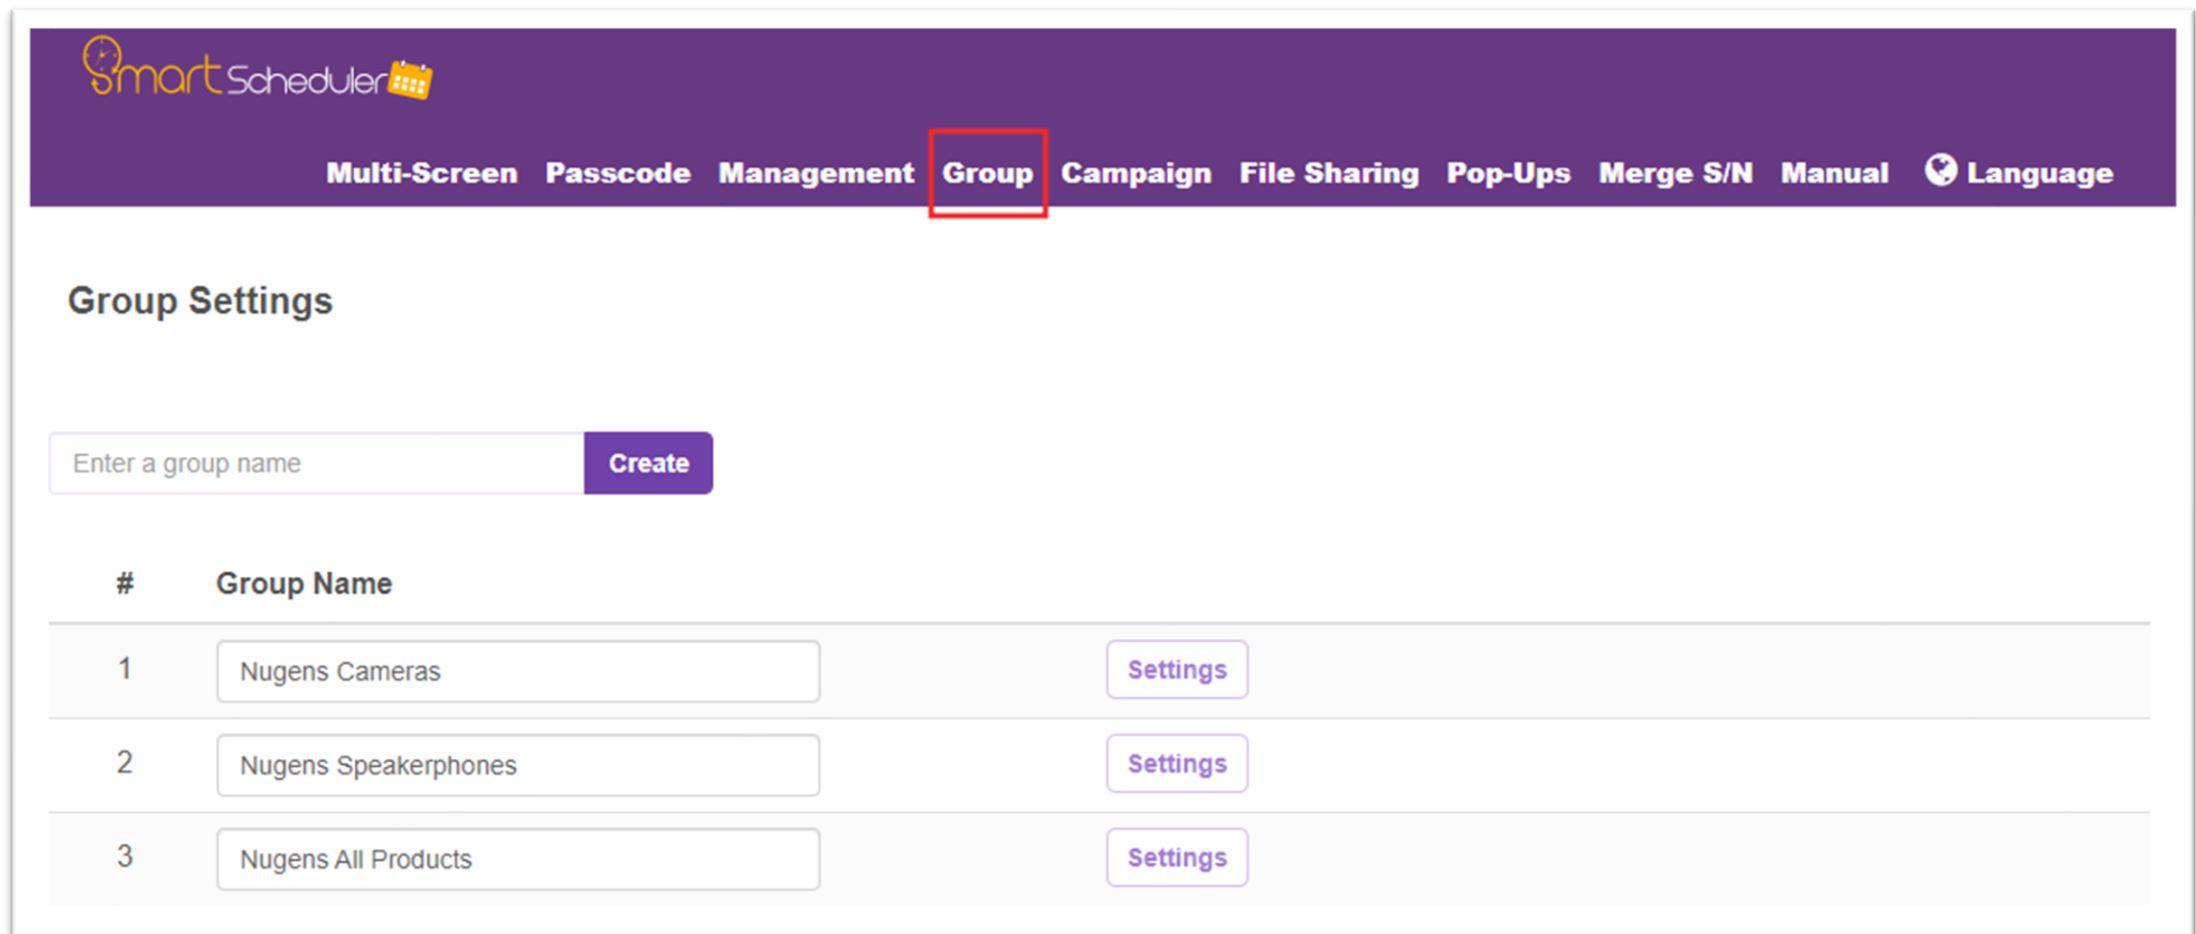

The image displays three panels, each representing a different computer's remote management interface. Each panel contains the following information and controls:

- Computer Name:** DESKTOP-95NHUH2 (left), DESKTOP-S6SFG2B (middle), and U-SMART-NAOMI (right).
- IP:** [Redacted]
- Mac Adress:** [Redacted]
- Restart SmartScheduler** (purple button)
- Play Now** (purple button)
- Status Monitor** (purple button)
- Shut down/Sleep** (light blue button with power icon)
- AutoPlay** (toggle switch, currently set to **OFF**)

The AutoPlay toggle switch in each panel is highlighted with a red rectangular border.

Remote Management | Group

If the user owns a large number of digital signages, when the user wants to update the playlist via the File Sharing function, SmartScheduler supports the Group function to update the same file by a group – save time, instead of updating it one by one.

The screenshot shows the SmartScheduler web interface. At the top, a dark purple navigation bar contains the logo and several menu items: Multi-Screen, Passcode, Management, Group (highlighted with a red box), Campaign, File Sharing, Pop-Ups, Merge S/N, Manual, and Language. Below the navigation bar, the page title is "Group Settings". There is a text input field with the placeholder "Enter a group name" and a purple "Create" button. Below this is a table with three rows, each representing a group. The table has two columns: "# Group Name" and "Settings".

#	Group Name	Settings
1	Nugens Cameras	Settings
2	Nugens Speakerphones	Settings
3	Nugens All Products	Settings

Remote Management | Group

Select Settings to manage the group and assign digital signage (Computer) for this group, after done selecting, select Save button to exit.

Remote Management | Virtual Remote

After scanning the QR Code and enter the Authorization Code, your phone/tablet will open the default browser and the UI will become a "Remote Controller"

Remote Management | Pop-Ups

Able to send announcements to digital signage(s) to share the latest news/promotions with customers or users.
Please note that this function is suitable for **the limited-time events for 1-hour maximum**.

The screenshot displays the 'Remote Management' interface. At the top, a navigation bar includes 'Passcode', 'Management', 'Group', 'PC List', 'File Sharing', 'Pop-Ups', and 'Merge S/N'. The 'Pop-Ups' menu is highlighted with a red box, and a red arrow points to a dropdown menu that lists 'Text Pop-Ups', 'Image Pop-Ups', and 'URL Pop-Ups'. Below the navigation bar, the main content area is titled 'Remote Management' and features a 'Sort by Group' dropdown set to 'All'. The interface is divided into three columns. The left column, titled 'Batch Tools', contains buttons for 'Restart SmartScheduler', 'Play Now', 'LAN File Sharing', 'Wake', and 'Sleep', along with 'Status Monitor' (ON/OFF) and 'Camera Snapshot' (OFF) controls. The middle and right columns show details for two computers: 'A19-40' and 'WALL55'. Each computer's panel includes buttons for 'Restart SmartScheduler', 'Play Now', 'LAN File Sharing', 'Status Monitor', 'Camera Snapshot', 'Wake', and 'Sleep'. The 'Ads Status' for both computers is 'Ongoing'.

Remote Management | Text Pop-Ups

Send text pop-ups to digital signage(s) to share news or event with your customers or users.

The screenshot shows the 'Text Pop-Ups' configuration page in the SmartScheduler interface. The page has a purple header with the logo and navigation links: 'Passcode', 'Management', 'Pop-Ups', 'Combine S/N', and '繁體中文'. The main content area is titled 'Text Pop-Ups' and contains several configuration options:

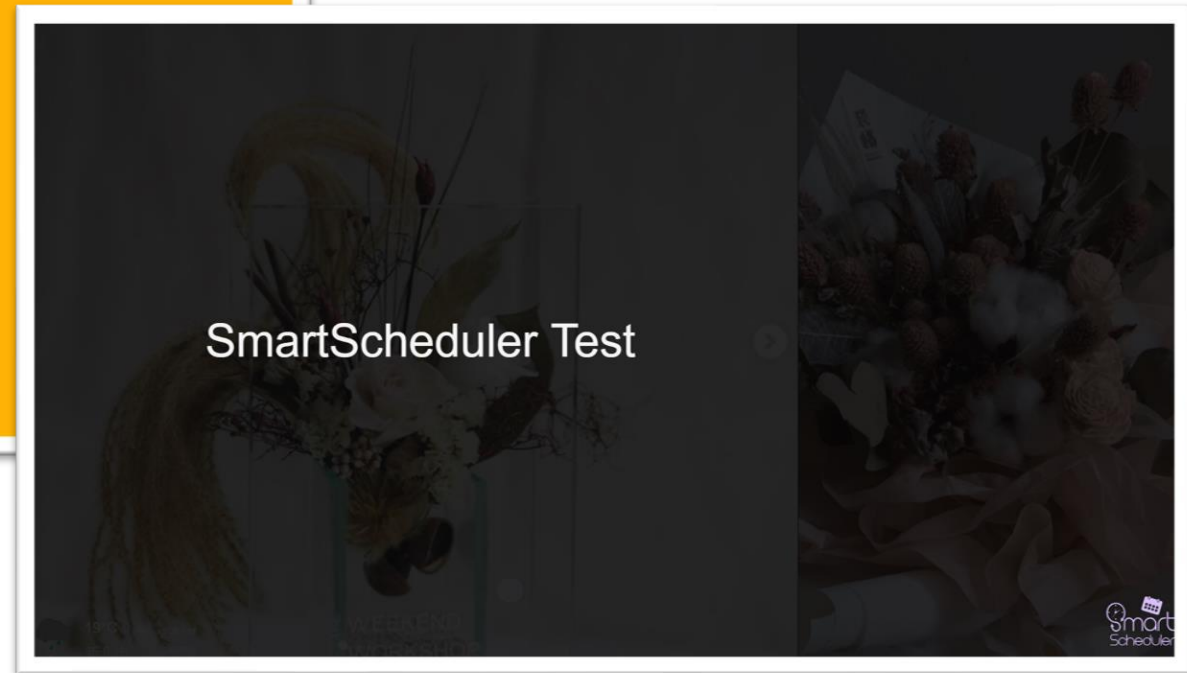

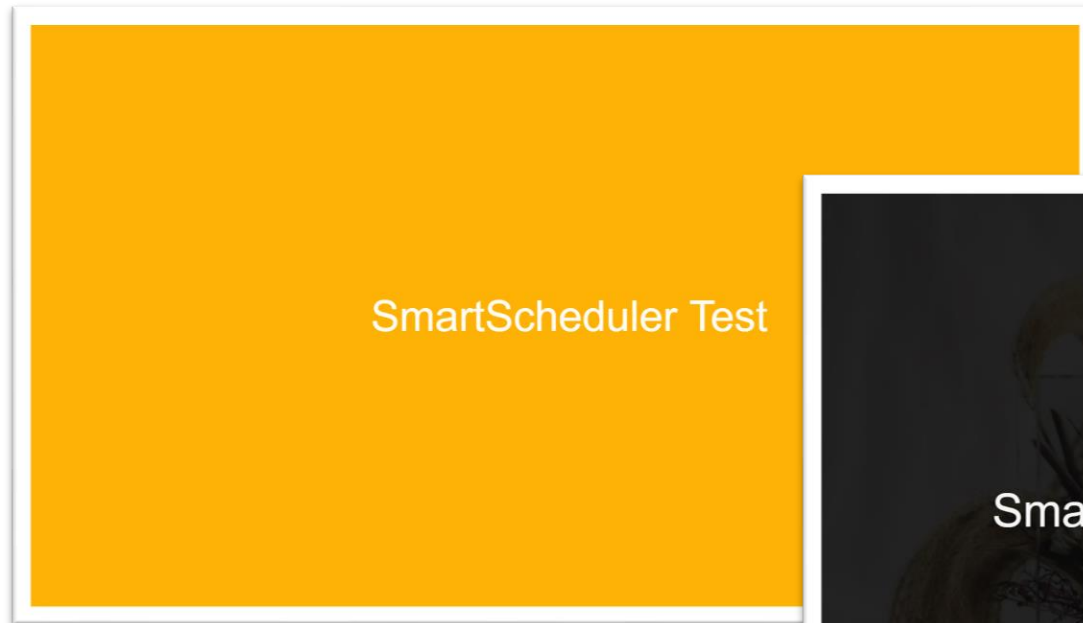

- 2**: A red circle highlights the configuration options: a text input field with a red 'A', a color selection box, a speed slider, 'Starting Time' (0 hr 0 min), 'Duration' (0 min 0 sec), 'Background Music' (Choose File), and a 'Repeat Pop-Ups?' checkbox.
- 1**: A red circle highlights a large empty text area for the pop-up content.
- 4**: A red circle highlights the 'Confirm' button.
- 3**: A red circle highlights the 'Select' column in a table of target devices.

Below the configuration options is a 'Speed Preview' box containing the text 'SmartScheduler Test'. At the bottom, there are buttons for 'Select all' and 'Pop-Ups Record', and a table of target devices:

Remote Management | Merge S/N

For example, you have purchased 10 units of Smart Scheduler S/N, but you realized it is not enough to run the business, and you wanted to buy another 15 units. The Merge S/N function lets you merge these 2 S/Ns as one, the total usage for this S/N will be 25 units.

The screenshot shows the 'Merge S/N' interface in the Smart Scheduler application. At the top, a dark purple navigation bar contains the 'Merge S/N' menu item, which is highlighted with a red box and a red circle containing the number '1'. Below the navigation bar, the page title 'Merge S/N' is centered. The main content area is divided into two sections. The first section, titled 'Current Serial Number', contains a form with five input fields separated by hyphens, with the third field containing 'S/NR' and the fourth 'UC'. Below this are two input fields: 'Max Number of Activations' with the value '20' and 'Activated Number of Times' with the value '15'. The second section, titled 'Enter a New S/N to Merge with Current S/N', contains a form with five input fields separated by hyphens, which is highlighted with a red box and a red circle containing the number '2'. Below this form is a 'Merge' button, which is also highlighted with a red box and a red circle containing the number '3'.

Thank you 😊
